Mr Burns x EX-93 Dyks Advent Lucy-Red-ET
Nom. All-American R&W Sr 2-Year-Old 2008

SONS: MAGENTA-RED 7H11754 +1966GTPI +1.81PTAT at Select;
LUCIFER *RC 76H671 +1916GTPI +2.52 PTAT at Taurus;
DENOTE 200H10058 +2102GTPI +2.7 PTAT at Semex.

We have three Magentas fresh and they are milking well with fantastic rear udders. We also have two Lucifers fresh. They are tall and silky with beautiful udders.

Doozy has a Megasire granddaughter from her G+83 Destined that is *RC and +2329GTPI and generating contract interest. Her stupendous Destry is below.

DTR: MS OLYMPIAN PETAL-RED-ET +2422GTPI +\$572NM +1.54PTAT (preliminary)

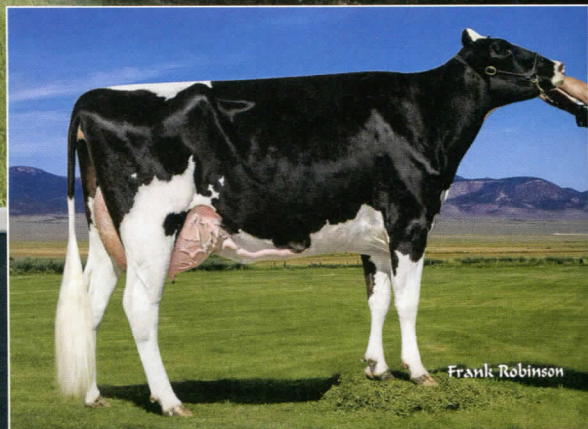

She is both a carrier of the Variant Red gene and the recessive Red gene. This means all progeny from red bulls will be red and half of the progeny from black sires will be red.

A truly revolutionary animal. Rose has pregnancies by Addiction and Kingboy.
